#### Mission and Vision:

"The aim of education is the knowledge, not of facts, but of values

The mission of the college entirely revolves around the idea of holistic development of a student.

The goal of the college is to impart training in the chosen discipline as well as essential life skills, as per the NEP 2020 Document's Vision.

To motivate the teachers to provide the best of quality education, requisite for the overall development of students

To encourage the teachers in research and participation in certification courses.

To make full utilization of its resources

To provide quality infrastructure for sports and other co-curricular activities.

The college aims to provide each of the disciplines taught in college with a smart classroom, equipped to instruct through various modes.

A person without self-esteem is like a rudderless ship.

To fulfil this, every department of the college not only strives to instruct students according to their syllabi, but also aligns the content of instruction to that of the vision of the institution.

The vision is to prepare the students for their future by helping them to be a better version of themselves in all aspects.

The vision is to create students 'strong in will/ to strive, to seek, to find, and not to yield'
